Others

I spend my free time rolling dice as a **Dungeon Master**, diving into **video** games, and experimenting with **emerging tech**: **storytelling** and **problem-solving** are hobbies, not just skills.

Matteo Cavaliere

Matteo Cavaliere

JUNIOR UX/UI DESIGNER

Ever seen an **aerospace engineer pivot to UX/UI design**? That's me, someone who traded **equations** for **empathy**, swapping **technical precision** for **human-centered creativity**. My journey through humanities and communication taught me that the best designs aren't just functional: they **connect, resonate**, and **solve real problems**. I bring experience from the entertainment, TV, and technology sectors, with a background in **journalism**. **Empathy** is at the core of my approach: whether crafting a narrative or designing an interface, my goal is to **understand people's real needs** and transform them into engaging solutions.

Academic Background

• START2IMPACT

2024 - 2025: Master's in UX/UI design and AI

I completed the Master at **start2impact**, an online professional school that trains digital-talent by combining theory and **hands-on practice**. I gained practical experience through **10 real-world design projects**, covering everything from user research and wireframing to interface design and usability testing. All under the guidance of **industry professionals**.

• UNIVERSITÀ STATALE DI MILANO

2020 – 2024: Bachelor's Degree in Humanities for Communication

Final Grade: 99/110

• POLITECNICO DI MILANO

2017 - 2020: Selected Exams in Aerospace Engineering
